OUR MISSION STATEMENT

“TO OPERATE A WELL ORGANIZED AND EFFICIENT COMPANY THAT CONTINUALLY STRIVES TO PROVIDE OUTSTANDING QUALITY IN ITS SERVICE TO ALL OUR CUSTOMERS. A CLEAN AND SAFE WORKING ENVIRONMENT FOR OUR EMPLOYEES, AND PERSISTENTLY INCREASING THE INTEGRITY AND PROSPERITY OF THE COMPANY.”

ABOUT US

Don Rogers, Sr. and his wife, Betty, started their company in 1953 with a Ford farm tractor and a Model “A” dump truck. During his first year in business, Don Sr. sold dirt, plowed gardens, graded yards, planted lawns, and graded and paved driveways. As the housing boom began, he would clear and strip the lot, dig the basement, backfill the cellar, grade the yard, and pave the driveway. These services soon developed to be a complete package for the homebuilder. The next step was to build the roads for the new housing developments.

As the company grew, commercial site work contracts became the predominant activity. Our list of completed contracts includes road construction, commercial buildings and warehouse complexes, shopping centers and school sites, construction of tennis courts, running tracks, and all types of athletic fields. Sales of soil materials and grading for agricultural businesses and installing soil conservation measures round out our list of activities.

In 1968, the office and shop were built on Reeves Road in Fairfield Township. The company was incorporated in 1978 with Don Sr. as president, Don Jr. as vice president, and Betty Rogers as secretary and treasurer. Since the passing of Don Sr. in 1989, Don Jr. has continued to serve as president and director of operations. The firm currently has approximately 25 employees, some of whom have been with the company more than 30 years.

We Can Prepare Your Commercial Site

| | |
|----------------------------|----------------------------|
| Clearing | Backfill the Walls |
| Site Removals | Fine Grade for Slab |
| Erosion Controls | Site Concrete |
